Tahoma ▼
I am educated to degree and specializing in Mathematics. I concentrate my efforts on 'private tuition' in which I have had considerable success and find stimulating and rewarding. I am fully conversant with the Mathematics syllabus throughout primary and secondary school and aim to pass this knowledge on to the pupil in a supportive atmosphere, tailoring lessons to the needs of the individual
pupil

* The underlying factor for my success is my ability to change my style of teaching according to each student’s ability, including past exam papers and numerous specimen
papers
